G/L –364 MULTI-HAZARD EMERGENCY PLANNING FOR SCHOOLS

***No Cost Training Opportunity! Tuition and
Course Materials Free.***

This 2-day course provides the knowledge, skills, and tools needed to develop or refine an all-hazards school Emergency Operations Plan (EOP) and to identify how to train and exercise the school EOP. This course follows the guidance set forth in the FEMA Comprehensive Preparedness Guide (CPG) 101 for developing an emergency operations plan and explains how to engage the whole community—including parents/guardians, and outside agencies such as law enforcement, fire, and emergency management—in school preparedness and planning. Throughout the course, school representatives will review their existing EOP or identify how to develop one, determine areas for improvement, and make changes or updates to the EOP. They will also identify the benefits of training and exercising the school's EOP, and who needs to be involved in training and exercising the EOP.

Recommended Attendees: School groups are preferred, which could include principals, assistant principals, risk managers, school board members, school safety coordinators, transportation and food service coordinators, facility managers/building engineers, nurses, counselors, public information officers, teachers, school resource officers, and community first responders – law enforcement, fire, EMS etc.

July 17-18, 2014

8:30 am – 5:00 pm

Prerequisite Training: ICS-100, for Schools, and IS-700 National Incident Management System (NIMS), an Introduction. This training can be completed at: training.fema.gov, go to EMI and then Independent Study.
